

Crafting distinct living experiences since 2014, Ellington Properties stands as a curator of design-first residences across the Emirates. More than homes, we compose lifestyle narratives, where architecture is intentional, detail is deliberate, and communities are shaped with soul.

Riverton House is our latest expression, a boutique development where contemporary urban design flows seamlessly into the calm of natural surroundings. This is not just a place to live. It's a return to balance. A home of quiet distinction.

Welcome to life in balance.

LIFE IN BALANCE

Riverton House evokes a lifestyle of quiet elegance, where flow, community, and nature coexist in perfect rhythm. Set within the vibrant heart of Mohammed Bin Rashid City, this boutique residence is a sanctuary of mindful design where architecture doesn't just impress, it integrates.

Here, every line, texture, and finish is curated with intention. With panoramic views of the community lagoon and a seamless connection to its natural surroundings, Riverton House is an invitation to dwell in balance, a home where modernity meets stillness, and everyday living is elevated by design.

MINDFUL EVERYDAY MOMENTS

Calming neutral tones, natural textures, and considered design details shape a serene atmosphere, a peaceful retreat nestled within the city. This is not simply a residence; it's a place of belonging. Exclusive, intimate, and attuned to the rhythm of mindful living.

The lobby unfolds as a serene threshold, a curated space where warmth meets refinement. Porcelain floors, textured walls, and thoughtfully selected art pieces speak to a quiet sophistication.

A palette of soft neutrals and gentle greens offers a soothing contrast to the building's urban exterior, creating a dialogue between nature and structure. With inviting lounge areas, attentive hospitality, and an integrated co-working nook, it's a space for quiet connection, calm productivity, and moments of considered pause.
